A MESSAGE OF COMMITMENT

Message from the Secretary

The debate on emerging challenges of legal education in India, particularly on the nature of law and syllabi, has become an unending phenomenon and is the need of the hour. If we take a bird's eye view, legal education in the area of Kota and its surrounding districts is among the worst affected due to the scarcity of law colleges.

We started our journey with the formation of Excellent Law College, driven by the aim of social development and upliftment. The managing committee reiterates its commitment to make Excellent Law College the best institute in the field of legal education. We always put our best foot forward for the betterment of our students and society.

We are bound to produce quality professionals. We continuously strive to provide the most conducive educational environment to enable our students to attain the zenith of their professional lives. We pray to the Almighty to give us the strength to achieve our committed goals.
